

# FED begins Air Force dormitory program

The completion in early December of two Kunsan Air Base dormitories marked the beginning of a major FED program that will provide the Air Force with topquality living quarters in the next few years. A ceremony Dec. 18 commemorated the opening of the Kunsan dormitories. They will accommodate 200 airmen apiece and have solar panels on the roof to provide domestic hot water. Two additional dormitories at Kunsan are under construction and should be completed by the spring. When the entire enlisted personnel living complex is completed at Kunsan, 1,000 airmen will be accommodated. FED is also constructing a dining facility for this complex. Unaccompanied officers' quarters are also scheduled to be started there this fiscal year.

In the next three years, more than for-

ty of these dormitories will be built at the air bases in Korea. Two enlisted personnel dormitories now under construction at Osan Air Base should be completed in March. On Dec. 15, ground was broken for two more enlisted dormitories and one unaccompanied officers' quarters at Osan. These buildings are scheduled for completion in March of 1985. Five more dormitories for enlisted personnel and two more for officers are scheduled to be started this fiscal year at Osan Air Base.

While the current construction activity is centered on the Kunsan and Osan bases, plans in the near future include dormitories at air bases in Kwangju, Taegu and Sachon. Almost \$100 million has been programmed for construction of all the dormitories. They will all be constructed with concrete masonry units.

Col. Perrenot speaks at the dedication ceremony for the two new dormitories at Kunsan Air Base. The two dorms are only the first of many FED will be building for the Air Force.

Most of the dormitories now under construction were designed by Design Branch while most of the future dormitories are being designed by architectengineering firms under contract to FED.

### Corps chopper rescues ROK airman

CW Goodell is shown preparing Castle 474 for flight on Jan. 19th. Later that day, the helicopter was used in an emergency rescue mission.

Thursday, January 19th, was not exactly a routine flying day for the FED aviation section. Maj. Rollie Edwards, Chief Warrant Officer Richard Goodell, Spec. Steven Grosklos, and passenger Gretchen Wotherspoon (ADP) were flying from Kunsan back to K-16 when the radar station tracking them informed them there was a medical emergency at the radar site. One of the ROK airmen, Koh Byong Woo, stationed at the site was experiencing severe stomach pains that indicated possible appendicitis. Koh was being attended by a doctor but Koh was beginning to lose consciousness and it was apparent that he needed to be transported to a military

hospital in Seoul.

to the ROK military hospital.

Neither Maj. Edwards nor Mr. Goodell knew the location of the hospital so they relied on information from both Mangilsan and Kimpo Airport to guide them to their destination. Fortunately, the emergency occured in the mid-afternoon so the pilots at least had daylight conditions. Koh had begun the flight with an intravenous needle in his arm but it had come loose and his condition was apparently worsening. This put considerable pressure on Maj. Edwards to locate the hospital without delay. To complicate matters, the hospital is situated near a ridge which hid it from the pilots' view until they were right over it.

Upon clearing the ridge, the hospital came into view and the Corps helicopter made a quick landing. By 4:40 p.m. the medical evacuation was successfully completed. The initial call had come at 3:30 p.m. At the time of this report, the patient's condition is unknown but he has undergone emergency surgery.

Although there is vehicular access to the radar site, located at Mangilsan on the west coast, the time required for a surface trip to Seoul could well have cost the airman his life. Upon receiving the call for help, Maj. Edwards switched his course and was soon landing at the helipad. Within half an hour of receiving the call, the Corps helicopter was taking off for the forty-minute trip

With the hour and ten minutes rescue completed,

#### **To: District Employees**

The letter above was received at the district on Dec. 15th. I think it demonstrates how much your fine effort at Osan is appreciated by those who are depending on us. It certainly is nice to know that they realize how hard you are working to support the U.S. Forces in Korea.

I commend those in the Osan Resident Office and the Engineering, Construction and Procurement and Supply Divisions who did such an admirable job on this critical project. We have the satisfaction of knowing not only that we are being recognized for our work but also that we have contributed significantly to the defense of the Republic of Korea.

Frederick A. Perrenot Colonel, Corps of Engineers Commander

terest to others in the district, put it in a letter and send it to the Public Affairs Office.

# Standards of conduct explained

Far East District personnel are reminded that our chief method of operation is through the contract. Much of our daily dealing is with contractors. Consequently it is necessary to bear in mind our duty to comply with the standards of conduct as set forth in AR 600-50, dated 15 August 1982.

Far East District personnel have a responsibility not only to avoid conflicts of interest but even the appearance of a conflict of interest. No individual working for this command will ever advise a business representative that any attempt to influence another person or agency to give preferential treatment to anyone in the contract award process can or will be made. Any person requesting preferential treatment will be informed by official letter that U.S. Government contracts are awarded only in accordance with established contracting procedures.

Copies of the referenced Army Regulation may be obtained through the Office of Counsel, U.S. Army Engineer District, Far East. Similarly, anyone who might wish advice or clarification on any situation which he or she believes could involve a question of standards of conduct should feel free to consult any of the staff attorneys at the Office of Counsel, 2917-492.

### **Orphanage activities**

The FED orphanage committee was especially busy over the Christmas season. The annual Christmas party for the orphans was held Dec. 9th and a drawing for the benefit of the orphanage was held Dec. 19th. In addition, Jessie Amador (Western Corridor Resident Office) and his four "elves", Wanda Ralston (OEB), Gretchen Wotherspoon (ADP), Kim, Nak Su (Western Corridor), and Yi, Kyong Chu (Tech Anal), collected \$185 from district employees for the orphanage fund.

The orphanage committee would like to thank everyone involved for their participation and help during the Christmas party. Winners of the orphanage benefit drawing were Kim, Kap Su of Telescope Engineering (1st Richard Goodell (Aviation) (2nd prize), William Popp of Berger/Woo-Bo (3rd prize) and Yi, Kwang Il (Kunsan Resident Office) (4th prize).

Sgt.1st Class Scott McCue (Troops) is the Chairman of the Orphanage Committee.

#### **Contractor honored**

The II Kwang Industrial Company, limited was recently honored by the 1st Brigade of the Second Infantry Division for outstanding work on the refurbishment of the 1st Brigade Officer's Club. ## Gen. Wells to inspect FED

Maj. Gen. Richard M. Wells is scheduled to inspect FED in early February. Maj. Gen Wells is the Deputy Chief of Engineers and Deputy Commanding General of the Corps of Engineers. In that position, he is the principal assistant and advisor to Lt. Gen. Bratton, the Chief of Engineers, for the Corps' water resources development and management activities and military engineers. He has been in his position since last July.

While Maj. Gen. Wells is in the Republic, he will tour the Camp Casey, Osan Air Base and Taegu areas as well as the FED Headquarters. He is also visiting the Pacific Ocean Division as well as the Japan Engineer District on this trip.

Maj. Gen. Wells is a 1951 graduate of the U.S. Military Academy at West Point and has received two master's degrees, one in civil engineering from the State College of Iowa, and the other in international affairs from George Washington University. He has also attended military schools at all levels including the Naval War College and the National War College.

He has held numerous

responsible command and staff assignments in both the United States and overseas during his 32-year military career. Prior to his current assignment, he served as division engineer of the North Pacific Division in Portland, Oregon. Other assignments include serving as commander of the 84th Engineer Battalion (Construction) in Vietnam; staff officer in the office of the Assistant Vice Chief of Staff; district engineer in Chicago District; and division engineer of the Middle East Division in Saudi

### Camp Humphreys office fixes airfield

Corps of Engineers project signs are a common sight at Camp Humphreys these days. Almost \$20 million worth of projects are underway to fix up the airfield and buildings there. That is why Cpt. David Dawley's project office is such a busy place now.

Cpt. Dawley arrived in October to replace Cpt. Bruce Fink. He and his seven-person staff oversee several operation and maintenance and military construction contracts. The major project is an improvement of the Camp Humphreys airfield that is being accomplished by the Daewoo Corporation and the 802nd Engineering Battalion at a cost of over \$6 million. The 802nd is also constructing an exercise area access road and a maintenance deployment facility. More of than \$10 million in contracts are in effect for operations and maintenance work that is repairing the roofs, windows and heating systems in many of the existing office and living quarters there. Other military construction projects include an aircraft maintenance hangar and a support maintenance facility. A new chapel and technical support facility are included in the fiscal year 84 program.

The Humphreys Project Office is an element of the Osan Resident Office. In addition to Cpt. Dawley, the staff includes Staff Sgt. Lawrence Bradshaw, General engineer Ku, Chu so, Construction Inspectors Kang, Ho Mun, Kim, Tae Ho, Chi, Yong Hae and Yang Po, and the Clerk Typist, Kim, Yang Son. Overseeing the work of the many contractors and troop units keeps their days full.

### Face of compound changing

Page 4

Even the hard winter is not slowing the rapid pace at which the FED compound is being changed. The renovation of the headquarters is nearing completion, the new office building across the street from Engineering Division is progressing well and preparations are being made to demolish the condemned S-68 building. Construction activity can also be seen in the KOAX area and at the heating plant. It will be a while before things settle down as this is only the second part of a threephase renovation program.

An eleborate support structure is necessary for the winterization that will allow construction of the new office building to continue.

Contractor workmen work on the foundation for the new office building.

# Brig. Gen. Bunker visits FED

Brig. Gen. Robert M. Bunker paid FED a visit Jan. 10 through 13 to review the Military Construction-Army projects for fiscal years 1984 through 1986. He was accompanied by the Pacific Ocean Division's Chief of Engineering, Kisuk "Charlie" Chung.

While he was here, Brig. Gen. Bunker toured the Area III and 2nd Infantry Division areas. At conferences here at FED headquarters on Wednesday and Friday, he

was briefed on the FY 84-86 projects as well as the status of replacement housing. Thursday was devoted to trips to Camp Mercer and Camp Casey to observe Engineer Battalion activities.

### OAS offers correspondence course

Office Management Branch (OAS) sponsored a FED Correspondence Improvement Workshop for forty secretaries and clerks from the districtwide offices, during Jan. 11 to 13.

Additionally, three secretaries attended the OMB sponsored Functional Files System Course (TAFFS), during the same period.

Ms. Edith Newsome, the District Ex-

ecutive Secretary, conducted the Correspondence Workshop that provided the secretarial and clerical personnel of the district instruction and review of methods in district unique correspondence procedures, preparing military and nonmilitary letters, telecommunication messages, letter indorsement, disposition forms, memorandums, authentication and authority lines, signature blocks, and FED practices and

style for quality correspondence.

Staff Sgt. Charles D. Boeckman, OMB Management Assistant, conducted the TAFFS program during the afternoon hours for three FED secretaries: Ms. Ginny Duncan (SAO), Ms. Jane Johnson (OEB), and Ms. Annie Abrams (OEB).

The enthusiasm of the attendees toward the programs indicated that the workshop leaders did an outstanding job providing instruction and leadership.

Participants in the Correspondence Workshop, from left to right, 1st Row: Lt. Col. ### Mr. Kim retires after 26 years

to say about him: "Mr. Kim, Yo Su has worked for me for the past 10 years as an outstanding carpenter. Mr. Kim lives in Inchon and he commutes daily about 70 miles. During the time he has been under my supervision he has only taken a total of 32 hours sick leave, which I think is an accomplishment within itself. When he is called upon to build or repair something it is done expeditiously and thoroughly. Kim, Yo Su of the Repairs and Utilities (R&U) Branch is The Far East District retiring this month after 26 Engineers can be proud of Mr. years of service to the U.S. Kim's employment and I, for Army. His supervisor is one, will miss him very much. Robert Scott, the chief of He has been an asset to the R&U, who had the following repairs of this compound."

Participants in the TAFFS program: Left to right: Lt. Col. Birchfield, Mrs. Abrams (OEB), Mrs. Johnson (OEB), Ms. Duncan (SAO), Staff Sgt. Boeckman.

### Security news

The week of Feb. 6 to 10 is **USAEDFE** Crime Prevention Week. This is the time to think about some things you as an employee of FED can do to prevent crimes within FED. If you have information about crime or suggestions about how to prevent crimes call Staff Sgt. Boeckman, Security Officer

### FC results

Sgt 1st Class Scott McCue, FED project officer for the Combined Federal Campaign, reports that the district surpassed the previous years' contribution by some \$400. FED employees donated \$5,350 in the campaign which ran from Oct. 17 to Nov 18.

Considering the size of the district, this is an impressive amount. All the personnel of USFK donated \$714,903, which is a new record high amount. The funds contributed go to about 100 nonprofit voluntary agencies.

### 공사계약에 이해관계 절대로 개입치 못해

극동지구공병단 직원들은 우리업 무의 대부분이 계약을 통하여 이루 어지고 있다는 사실을 알고있다. 대 부분의 일과가 계약업자들과 함께 이루어지고 있기 때문에 우리의 업 무가 1982년 8월 15일자 미육군규 정 600-50에 명시된 기준에 의해 수 행되어야 한다는 점을 되새겨 볼 필 요가 있다. 우리는 이해관계에 개 입될 수 없는것은 물론, 이와 유사 한 행위도 할수가 없는 것이다. 누 구를 막론하고 공병단직원은 입찰 과정에 있어서 어느 개인이나 또는 회사에 대하여 편과적인 대우를 초 래할 수 있는 어떠한 시도도 할 수 없으며 또한 약속도 있을수가 없다. 그러한 편과적인 대우를 요구하는 업자는 미국정부와의 계약체결은 오로지 기존의 계약절차에 의해서 만 이루어진다는 사실이 공식적으 로 서면통지 될 것이다. 관련된 육 군규정사본은 극동지구공병단 상담 실에서 배부하고 있다. 계약규정에 의문점이 제기된 경우에 대한 상담 이나 설명을 원하는 사람은 누구돈 지 상담실(2917-492) 간부변호사외 서슴치말고 상의하여 주기 바란다.

### 다사다난했던 고아위원회

국동지구공병단 고아위원회에 있 어서 성탄절은 특히 바빴던 기간이 었다. 연례 고아를 위한 성탄절 파 티가 12월 9일에 있었으며 이를 위 한 모금추첨이 12월 19일에 있었다. 또한 Western Corridor주재사무소 의 Jessie Amador씨와 4 명의 요정 Wanda Ralston(OEB), Gretchen Wotherspoon(ADP), 김낙수(Western Corridor), 이경주(Tech Anal) 씨는 공병단 직원들로부터 185불의

공병단 CFC모금운동에 앞장

동지구공병단의 규모를 생각해 볼 때 이것은 대단한 성과였다. 주한미 군이 모금한 총액은 714,908불이었 으며 이것은 지금까지 가장 많았던 기록이다. 이기금은 약 100 여개의, 자발적인 비영리단체를 위하여 사 용될 것이다

전국모금운동을 위한 극동지구공 병단 사업담당관 Scott McCue중사 의 보고에 의하면 올해의 모금운동 은 작년에 비해 약 400불을 초과하 는 성과를 거두었다. 공병단근무자 들은 10월 17일과 18일에 결친 기 간에 총 5,350불을 모금하였으며 극
