As is appropriate in the "Year of the Family," ground was broken August 9 on a project to provide 300 family housing units on Yongsan South Post. The $36.5 million project is being funded by the Korean National Housing Corporation (KNHC) but when the housing units are completed next June they will be maintained and operated by the U.S. Army. FED has been responsible for criteria preparation and will surveil the construction of the project. The KNHC designed the buildings. The new buildings, each containing between 5 and 10 separate units, will be constructed at three separate locations on South Post: at the old heliport site adjacent to U.S. Embassy housing, at the site of the skeet range and kennels near the Rod and Gun Club, and at the old golf driving range. The housing units will include two, three and four bedrooms and all will have at least two bathrooms. This housing is intended to replace the units at Friendship Village so that area will close after construction is finished.

In addition to the 300 housing units, the Yongsan project will also include construction of a day-care center and preschool at the heliport site. A softball field will be added at that site later as a separate project. The project starting now will also include an expansion of the fire station.

An additional seventy-two units are scheduled for construction on Camp Carroll, near Taegu. Start of work there, however, has been held up by the need to acquire necessary real estate. The Camp Carroll project will include construction of a swimming pool and bathhouse, a day-care center, youth center, and a management complex containing retail shops. One General's residence will also be built. The Camp Carroll housing is intended to replace existing housing for U.S. personnel at Su Song Heights in Taegu.

Bill DeKeyser's Combined Defense Construction Management Section has been managing this project through the criteria preparation and design stages. The Amkor/SAC joint venture firm was contracted by FED to provide the criteria preparation. Glenn Matsuyama and Yi, Kun Chang have been the FED project managers.

Osan AB shelter doors done early

In his first week as Commander, Col. Fulton was greeted with a task he will perform many times over during his tour here. He participated in the ribbon-cutting for an FED project. In this case, it was one of the major projects, the addition of concrete doors to fifty aircraft shelters on Osan Air Base. The ceremony was sponsored by the contractor, the Seo II Industrial Company and took place at the project site on July 20.

The Seo II Company began the work in the fall of 1982 under terms of a $13.9 million contract. Each shelter was fitted with a 100-ton door which slides along the face of the arched shelters. Concrete structures support the doors when they are in the open position. These doors have been designed to open or close quickly in the event of attack. Personnel entrances were also cut into the sides of each shelter and small sliding doors were installed in the rear wall.

As reported in the July 1983 edition of EAST GATE EDITION, this project was the source of the largest value engineering proposal ever approved by the district. The Seo II Company proved that soil conditions were stable enough to eliminate the need for predrilling and installation of precast concrete piles. Instead, they were allowed to use regular pile-driving procedures for the installation of the tracks for the doors. This resulted in a $1.4 million savings in the contract cost. The Seo II Company received 55% of the savings because it had submitted the proposal.

The ribbon-cutting ceremony was held at one of the newly modified shelters and a demonstration of the door opening was given. In addition to Col. Fulton, Mr. Ro, Kyung Ha, President of Seo II, several U.S. Air Force officials, Howard Elliott, Osan Resident Engineer and others helped cut the ribbon on the project. Mr. Kim, I Yong, the quality assurance inspector on the job, gave a brief on the project.

Col. Fulton and others who presented remarks at the ceremony praised the Seo II Company for delivering a quality product ahead of schedule. The scheduled completion date had been August 14 so the job was done more than three weeks ahead of time.
Message from Colonel Fulton

Thanks for the welcome you’ve extended to my family both before and since our arrival. I’m very appreciative to be able to join the Far East District and am excited about the opportunity of working together towards our challenging goals.

Our primary mission is to provide and assure our customers of quality and timely service within available funds. That’s a tough but realistic job that we must continue to do. And I want to commend each of you for your work and contribution you’ve made during your service with the District. The District has experienced several unique events during its 27 plus years, becoming stronger each year as many of you can attest.

I’ve talked with many and have visited several project sites and it’s readily apparent of this District’s accomplishments. And they’ve been made because of its people-you being dedicated and working very hard. You’ve performed all the tasks a business does to plan, design, control, execute, and assure performance that the customer expects. You must be proud of your performance.

The strides you’ve made in the past few years are enormous. There are more projects, more customers and we now have more people with probably more challenges yet the same basic mission.

You’ve done well, been through alot and now have a federal district from your laborbs by making good use of the added assets and facilities yet to come! Again thanks and Esayours.

Col. Larry B. Fulton

Fed holds EED workshop

Ann Ryan, EEO Officer and Nancy Carter, Federal Women’s Program Manager, sponsored an EEO Workshop that was held on the Far East District Compound, July 23. The response to the presentation was terrific. Pat Thompson, UESA/USFK EEO Manager held the attendees spellbound as she presented an overview of the EEO program in Korea, the complaint process and how not to be named as an Alleged Discriminating Official. She was assisted by Donna Faucheau in presenting how to prepare an SF 171.

The video Power Pinch was shown on the prevention of sexual harassment. Thane Coffin, Chief Engineering Division, said, “It was as one of the best video presentations I’ve seen. It really puts the point across.”

Sessions were attended by employees from KOAX, CEEIA, as well as employees of the Far East District. After the session enthusiasm ran high and everyone is looking forward to the next program.

Personnel news

“Illegitimate” (out of wedlock) children of deceased Civil Service employees from throughout the country are now eligible for survivor annuity benefits on the same basis as other surviving children, as the result of a federal court decision in the District of Columbia. Hundreds of children are affected by the Court’s 1978 ruling, and many of them are eligible for benefits, the amount of which will vary according to the provisions of the retirement law.

A provision of the Civil Service survivor annuity law, which restricted survivor benefits to those “illegitimate” children who were “living with” their Civil Service parent at the time of the parent’s death, has been declared unconstitutional. Judge Charles R. Richey of the District of Columbia federal district court ruled that all “illegitimate” children whose Civil Service parent died on or after February 24, 1972, are entitled to back (“retroactive”) benefits which the Office of Personnel Management (formerly the Civil Service Commission) improperly denied them. They may also be entitled to future monthly benefits as well.

Persons who think they may be eligible for benefits or who know about children who may be eligible for benefits should write or call P.O. Box 16, Washington, D.C. 20004, 202-632-6833.

Office of Personnel Management

District Engineer .................................................. Col. Larry B. Fulton
Chief, Public Affairs ........................................... H. Ross Fendeburg II
Editorial Assistant ............................................. Kim, Jae Yol
Many temp. KN positions to be perm.

The Pacific Ocean Division has granted a request made by FED earlier this year to convert 94 U.S. civilian positions to permanent Korean National (KN) spaces. This will allow the district to convert many of its temporary KN positions to permanent positions. This conversion, to be completed before the fiscal year ends on September 30, will allow the district to reduce its abnormally high percentage of temporary employees and provide for a more stable workforce. Currently, about 30% of the workforce is in a temporary status and more than 36% of the KN positions are temporary.

Approximately 42 percent of the KN temporary positions will be converted to permanent positions in the next two months. When the conversion is complete and some additional hiring of U.S. civilians for permanent position takes place, the district’s permanent strength will stand at 308 KN employees and 208 U.S. employees. This 3:2 ratio will provide a strong base of local, long-term knowledge flavored with the abilities of the mobile U.S. employees who generally serve a one or two year tour and move on.

FED has been doubled in size since the fall of 1980 when the total workforce was only about 300 people. In that time, however, the workload has more than tripled. The district program was $70.4 million in Fiscal Year (FY) 1980, jumped to $269.9 million in FY 81 and currently is at about the FY 81 level. Projections indicate a moderate increase in FY 85 and a dramatic rise to the $500 million level in FY 86.

Small staff busy at Suwon Air Base

One of the newest offices in FED is the Suwon Project Office currently headed by Gilbert Mueller. The office was established in January as Mueller and Cha, Kwang Hui moved over from the Osan Resident Office, which oversees the work of the Suwon Office. Mr. Cha is a civil engineer. The other employees there are Ben Taylor, a construction representative who arrived here in January, and Sin, Myong Sun, the office secretary.

The Suwon Office inspects Combined Defense, Air Force new construction and Air Force operations and maintenance projects. Suwon has been the site of the biggest FED Combined Defense project to date. Twelve concrete, partially enclosed shelters and six quick-turn shelters have been constructed as well as maintenance facilities. In addition, billets, a hospital, post office and club have been constructed for the U.S. Air Force personnel there.

A $304,000 O&M contract with the Selim Development and Industrial Company to add water wells and construct a mogas facility is currently underway. A petroleum storage tank is being constructed under a $5.8 million contract that calls for a similar facility at Osan Air Base.

Work upcoming at Suwon includes a second echelon logistic storage facility that should be started later this year. The Fiscal Year 1985 program for Suwon calls for construction of a ground fuel storage facility, a refueling vehicle maintenance shop, and a portomod support facility.

Another $320,000 in O&M work is scheduled for Suwon this Fiscal Year and more than $2.5 million is included in next year’s budget for O&M work there.

Suwon people and projects

Building boom

Building for the U.S. Forces in Korea continues at full speed. Pictured here are but a few of the many projects FED has underway throughout the Republic.

New personnel housing for Air Force personnel at Osan Air Base.

Above: Camp Red Cloud Entertainment Center is nearly complete. Right: Camp Humphreys Control Tower also is nearly complete.

Osan Operations and Intelligence Center, a Combined Defense project.
Ready for more

The FED softball team finished the regular season in fine style July 26 as they defeated the 21st Transportation team to bring their record to 15 wins and 7 losses. This was good enough to put them into second place in the “B” league of the Yongsan Area Slowpitch Softball league. The only team ahead of them was the 501st Military Intelligence team which finished with a perfect 22 wins, no losses record.

Their second-place finish qualified the FED team for the Yongsan Area Championship tournament, which is to take place from August 2 through 10. At press time, FED was scheduled to play the Finance and Accounting Office-Korea (F&AO-K) Military Intelligence, HHC, 8th Army, and 55th Aviation teams of 4-5 people.

Whatever happens in the Championship tournament, the FED team has had a fine season. In addition to their impressive won-lost record, they won the Memorial Day tournament by winning the 29 other teams. Their second-place finish qualified them for the Area Central tournament, which will determine the top four finishers in each division.

For six days, from June 4 until June 9, they assaulted the course, starting at 7:45 a.m. and not finishing until 5:00 p.m. According to Sgt. 1st Class Larry Foreman, the course included a variety of mountaineering tasks and obstacle encounters, which severely tested the participants’ arm, leg and mental strength. The ROK Army personnel, who were the instructors for the course, showed little sympathy for the struggling soldiers but all the obstacles were safely designed and no one was injured. All the participants were required to be entirely self-sufficient for the length of the 6-day course. They had to bring their own food, water, and equipment to the base camp.

This year’s FED participants were not the first FED’ers to complete the course. Major John Seimler and Capt. Kevin Keating completed it eighteen months ago. FED military personnel interested in tackling the course should contact PSNCO Sgt. 1st Class Scott McCue. It is given twice a month, but you need to be in better-than-average physical shape.

3 FED soldiers at ROK ranger course

For six days, from June 4 until June 9, they assaulted the course, starting at 7:45 a.m. and not finishing until 5:00 p.m. According to Sgt. 1st Class Larry Foreman, the course included a variety of mountaineering tasks and obstacle encounters that severely tested the participants’ arm, leg and mental strength. The ROK Army personnel, who were the instructors for the course, showed little sympathy for the struggling soldiers but all the obstacles were safely designed and no one was injured. All the participants were required to be entirely self-sufficient for the length of the 6-day course. They had to bring their own food, water, and equipment to the base camp.

PEOPLE

New FED faces

SSG Charles Shirley is the Motor Sergeant at the Motor Pool. He has come from Fort Hood, Texas.

John Babbs is a Project Manager at the Military Branch. He has come from the European Division, Istanbul, Turkey.

Thomas Eisenmore is a Management Analyst at the Resource Management Office. He has come from the U.S. Army Missile Command, Huntsville, Alabama.

Stephen Browning is a Civil Engineer at the Foundations and Materials Branch. He has come from Denver, Colorado.

Roland Curo is the Supply Clerk at the Foundations and Materials Branch. He has come from Suisun City, California.

Thomas Lenda is a Civil Engineer at the Technical Analysis Unit. He has come from the Seattle District, Washington.

SP4 James Coney is a Crew Chief at the Aviation Section. He has come from Fort Carson, Colorado.

SFC Ralph Henry is the Construction Inspector at the Camp Long Project Office. He has come from Houston, Texas.

Karol Papiernik is a Project Manager at the Combined Defense Construction Management Section. He has come from Bermuda.

SSG Christopher Garner is the Construction Foreman at the Camp Humphreys Project Office. He has come from Fort Benning, Georgia.

Karen Smith is the Chief of the Contracts Branch. She has come from the Fort Worth District, Texas.

Departures

Vern Parry (S&I) departed on June 26.
Capt. Richard Adams (Camp Casey) departed on July 1 for Ft Bragg, North Carolina.
Sgt. 1st Class Larry Foreman (Motor Pool) departed on July 1 for Ft. Carson, Colorado.
Master Sgt. Morman Whitman (Area III) left on July 9 for Ft. Leonardwood, Missouri.

Briefs

Congratulations to Spec. 5 Anthony Truitt (Troops) whose promotion took place on June 2.
Congratulations to Spec. 4 Steven Grosklos (Aviation) who received the Army Achievement Medal on July 24.
Congratulations to Chief Warrant Officer Artur Mattingly (Aviation) whose promotion was effective June 2. He also received the Master Army Aviator Badge for 3000 flying hours and 15 years service in an operational flying status.
Congratulations to the Dongsan Construction Company which received a letter of commendation from the Camp Casey Project Office for its excellent safety program on its project.

오산부설공사 부설공사 일척준공

이 300미터의 주택건물마당에 이르기 위해서는 상당한 인력과 장비가 필요하다. 최근 주택건축이란 건축지구의 성장과 공공안전에 대한 책임이 더욱 컸어지며, 이로 인해 한국주택공사는 더 이상은 공사를 진행할 수 있는 능력이 없다. (사진)

Bill DeKeyser의 말로는 주택의 개발은 주택건설투자아파트와 주택건설투자아파트의 조합으로 이루어진다. 이는 주택건설투자가지구의 시장이 형성되기 전에 이루어진다. (사진)

수원 공군비행장 현장사무소를 찾아

수원공군비행장 현장사무소는 현장사무소의 의미로서 Gilbert Mueller역에 이르는 수원현장 사무소가 있다. 이 사무소는 지난 11월 수원사무소를 관할하고 있는 오사카사무소와 Mueller 역과 좌표변경이 심도로 부재였는데, 사태변경을 토대로 현장사무소의 업무를 맡고 있다. 이와 함께 Ben Taylor역이 지난 11월부터 현장사무소로 근무하고 있으며, 실천사는 비상사태 근무하고 있다.

수원현장사무소는 업무범위를 두어 공군 신축공사, 그리고 작전 및 정비에 관한 사무를 담당하고 있다. 수원비행장은 지금까지의 국동지 구중부대 현장현무부로 가장 큰 비중을 차지하고 있다. 현재까지 부문으로 배정된 12곳의 공로로 제한되어 6곳의 신축공사소로 전이 사상이 실측되었다. 또한, 이곳 공군구청장은 위 협력사와 협의, 구체적으로 현장, 육군사령부가 실측되었다.

수원현장사는 현장사무소를 통해 30% 정도의 현장사로 배정된 12곳 이상의 신축공사소로 전이 사상이 실측되었다. 또한, 이곳 공군구청장은 위 협력사와 협의, 구체적으로 현장, 육군사령부가 실측되었다. 또한, 이곳 공군구청장은 위 협력사와 협의, 구체적으로 현장, 육군사령부가 실측되었다.
한창 바쁜 여름현장

숲이 막힐듯한 무엇이도 여름날씨도 아름답지 않고 주변이군을 위한 시설공사가 한창 바쁘게 진행중에 있다. 극동 지구공병단이 건설하고 있는 수많은 계획 중의 일부를 이곳에 소개한다.

오산군기지에 신축중인 장병주차.

공병단 소프트볼팀 본선토너먼트에 진출

만나보면 이질적들

국대지구동방단 소프트볼팀은 지난 7월 26일 치러진 우승예선 경기에 출범한 경우로서 종합 15승 7패의 전적으로 탄탄한 대진을 뚜렷하였다. 이 기록은 유니버시티 오스포츠 리그 UBO에 2위를 차지하였으며, 이 기록의 획득은 50% 이상대조 그룹에서 25승 22승의 기록을 세웠다.

FED팀은 이번의 한반 예선 경기에서 2위로 작동하면서 8월 2일부터 10일까지 개최되는 용상 지구 생명산업 토너먼트의 출전권을 획득하였다. 그룹은 8월 3일 805경기도의 경기를 시작으로 본선경기에 참가하게 되어 이 경기에는 좌자가 전진하였다.

사회적 필요 토너먼트는 저작권에서 4위까지의 팀이 참가하기에 따르면, 상당한 경기가 될 것으로 예측된다. 과거에 나타난단타가 갑자 50점으로, 8강분류전 6강 진출팀의 특별 강직한 팀으로서도 동일하게, 토너먼트와 경기에서 1위를 찍자면 팀이 중앙구리구치로서 충전하여 독특한 납득력과 함께 우승경의움을 높이고 좌위 경기장

행리적인 경기의 결과를 놓여서, FED팀은 이론적으로 충족한 경기는 보유하였다. 그동안 세련된 전진이었으며, 이 팀의 경기경기는데는 29개의 팀을 치르고 6년을 거쳐도 가능한 수로 자극된 모양이다. 6월호 EAST GATE EDITION에서, 그로는 또한 국대지구동방단을 축하하며 대하하였다.
