Yongsan Bowling Center grand opening held

The grand opening of the Yongsan Bowling Center was Monday, May 12. Participants at the ribbon cutting included Gen. William Livsey, Commander USFK/EUSA, Col. Winton Spiller, Commander 501st Support Group, Tom Papst, General Manager AAFES-Korea and Janette Agrue, eleven year old daughter of Capt. and Mrs. Anthony Agrue.

The Eighth U.S. Army Band provided music and a festive air. Many members of the Yongsan Community turned out for the opening — Joining in for free snacks, free bowling and door prizes.

In his remarks, Gen. Livsey stated that he was pleased (Continued on Page 3)

Secretaries’ week contest winners announced

Martha Sherman, Secretary in the Executive Office and Chon Mi Na, Secretary in the Pusan Project Office were the winners in the Far East District’s secretaries’ Day Contest. The ladies’ winning essays were on the theme “What Leaders in Customer Care Means to Me.”

Col. Larry Fulton, DE presented the awards at FED’s Annual Secretaries’ Day luncheon at the East Gate Club. All contest entrants and their bosses were invited to sit at the head table. Other entrants included Choe Si Cha, Construction Division; Kang Nae Hwa, Central Area Office; Elizabeth Matkowski, Northern Area Office; and Kathryn Oo, Procurement and Supply Division.

Chon, a native of Pusan, has worked as a secretary in the Pusan Project Office for 4 years.

Sherman began her career with the federal government in 1983 in Saudi Arabia and worked in the New Orleans District comptroller’s office prior to her working at FED in January.

Customer Care involves all of us, as a team. Not only does the customer need services that relate directly to the work done for him, but other services as well. We, as secretaries, clerks, and clerk-typists, perform these services. We do all the ‘little things’ that don’t really seem important to the job being done, but they definitely are. We file, type, make appointments (insuring that the person to be seen is aware of date, time and important information), and other things that support our role in caring for the customer. The written correspondence from our offices to the customer must serve the purpose for which it is written. It is our responsibility to be certain it is neat, concise and properly written. The files must be kept in order, so that important correspondence, documents, etc., can be located at any time.

We must follow filing procedures so that anyone can find the documents.

We are usually the first contact with the customers. First impressions do count, and we should make sure this first impression is the very best one possible. Our courteous, cordial welcome, our politeness on the telephone, even our offering of coffee while waiting to keep an appointment, are all important. This sets the stage for a pleasant discussion of business.

I feel we are all very essential to Customer Care. We are appreciated, so we should learn to appreciate ourselves. When we appreciate ourselves, we can do an even better job of Customer Care.

I am proud of my small part in Customer Care. We should all be proud, for we are important.

Martha Sherman
Memorial Day Message
From the President

For the Armed Forces, 1986

Each Memorial Day we pause to recall with love, with pride, and with gratitude those members of our Armed Forces who made the supreme sacrifice in preserving our liberty.

We Americans traditionally celebrate Memorial Day with parades, picnics, and the opening of swimming pools and beaches. While we look forward to this day as the unofficial beginning of summer, we also know it is a time of painful memories—memories of the many courageous Americans in all our wars who fought and died so that we could live in peace and freedom in this blessed land.

Today we pay solemn tribute to our fallen heroes. We know that we cannot give them as much as they gave us, but we and succeeding generations can see to it that they did not die in vain, by keeping the flame of freedom burning brightly. As we observe this Memorial Day, let us also remember that the best way to preserve our peace and to prevent future wars is to keep our Armed Forces strong and ready.

Ronald Reagan

---

Memorial Day
May 26

Heavenly Father, we come before you in thanksgiving and prayer for the men and women who have given their lives in the cause of freedom. We pray that you will comfort their families and friends and fill them with a sense of pride in their heroism.

May 26 is Memorial Day, a day to honor those who have made the supreme sacrifice for our country. It is a day to remember the bravery and dedication of our fallen heroes and to celebrate the freedom they fought for.

Ronald Reagan

---

Armed Forces Day, 1986
Message from the President

For most Americans Armed Forces Day is a once-a-year event, but to you who serve in the Army, Navy, Air Force, Marine Corps, and Coast Guard, every day is Armed Forces Day.

Whether you are on a lonely hilltop outpost in Korea, serving in that urban island of freedom known as West Berlin, patrolling the high seas, unloading cargo planes at Diego Garcia, turning eager youngsters into proud Marines, or rescuing small water craft off our nation's coasts, you all serve America and serve it well. We are proud of you—proud and grateful.

As Commander-in-Chief, I assure you I will not waver in my commitment to providing America with the strongest, best trained, best equipped, and most modern Armed Forces possible. Let no one have any doubts on that score. I salute all of you today and every day for your very special contribution to keeping America Free.

Ronald Reagan

Protect that classified information

By Lynn Clemons
Security Officer

The rules for protection of classified material are simple and clear-cut. Safeguarding information involves a variety of actions designed to protect our national security information. These include the use, storage, reproduction, transmission, and destruction of classified material under conditions that provide protection and prevent access by unauthorized persons. Classified material, when not in use, must be stored in safes or other approved storage facilities. When in use, the document will remain under the personal control and constant surveillance of person with an appropriate security clearance and a "need-to-know" of the information in connection with official duties.

Last year, while on TDY, a government employee left classified material in the trunk of his rental vehicle. The vehicle was broken into and the classified material was subjected to unauthorized disclosure. The employee was given a letter of reprimand by his supervisor recommending a three-day suspension. This incident was widely publicized, and as a result of this, organizational elements have been directed to treat security violations with the degree of concern that is warranted and to take prompt and firm disciplinary actions.

In the field of construction and engineering, many of our documents are classified or sensitive material and need protection from unauthorized disclosure. Protect those designs! Protect those contract bids! Never perform classified work or hold classified discussions in a non-secure area. Be extra cautious in dealing with persons not authorized to have access to classified material. It is remarkable how much information that gets to the general public can be traced to persons who speak irresponsibly in conversations and interviews. There is an actual threat that exists in our business. Information in the wrong hands could really hurt our business, our people, and our government.

Avoid needless exposure of classified material. Lock it up in approved containers, except when needed for working purposes. Classified information is not personal property and may not be removed from the installation without specific authorization. By following the do's and don'ts listed below, we minimize the threat of unauthorized disclosure:

- Don't ever take classified material into public places such as the snack bar, PX, and etc.
- Don't ever transmit classified material in a commercial taxi or bus.
- Don't ever leave classified material at your desk or leave it locked in your desk. Your desk is not an authorized storage area.
- Don't ever take classified material to your hotel, or personal quarters.
- Don't ever leave classified material at your desk or leave it locked in your desk. Your desk is not an authorized storage area.
- Don't ever transmit classified material in shotgun envelopes.
- Do use cover sheets at all times when carrying classified material.
- Do use registered mail whenever mailing classified material.
- Do double seal classified documents in two opaque envelopes at all times when carrying them between one installation and another.
- Do insure that documents are returned in a timely manner to an authorized storage facility.
- Do report security violations. Remember we expose ourselves to serious penalties if we purposely or even negligently compromise our national security information.

Yongsan Bowling Center

(Continued from Page 1) "that we are taking care of our employees, that we are creating a place where our soldiers, DOD civilians and their family members can relax in a wholesome atmosphere.

The 32-lane bowling center, built at a cost of $2.8 million dollars, is one of the largest bowling centers in the Orient. The Corps of Engineers' Far East District's Area III Project Office oversaw the construction done by the Ssangyong Construction Company.

The new facility has central heating, air-conditioning and automatically controlled humidity. The center also includes a snack bar, pro shop, percent compounded semi-annually, whichever is greater. The interest rates are determined every six months and at the end of five years the average of the 10 semi-annual rates will be used to establish a bond's five-year yield. The five semi-annual rates since November 1982 have averaged 10 percent which is very competitive with other marketable securities.

Savings Bonds are also fully protected. If lost, stolen or destroyed, they are replaced free of charge with no loss of interest.

Interest on bonds is exempt from state and local income tax, and federal income tax may be deferred until bonds are redeemed or reach final maturity.

For more information, see your office canvasser or call Chandler McMahan, RMO, at 337 or 474.
By Howard Blood

FESS

Living and working conditions for the U.S. military in Korea have become substandard. Conditions deteriorated in the late 70's due to the decision to reduce the presence in Korea. This action resulted in a severe cutback in the funds available to maintain existing facilities. New construction was almost unheard of, except for projects at those few installations which were to remain active after the draw down.

With the reversal of the decision to withdraw a substantial portion of U.S. forces came the immediate requirement to improve facilities. The time required for military construction projects was too great to meet the immediate need to repair or replace the hundreds of temporary facilities Korea-wide which had already served far beyond their original design life.

A large part of the required short-term improvements were executed in a manner designed and contracted for construction through FED. Management of this highly demanding program fell on FED's Facilities Engineer Support Section within the Military Branch. Working out of building T-8, itself a rather decrepit quonset of uncertain vintage, a small group of engineers guided the Maintenance Army Program to a working out of building T-8, was led, (some would say driven), was awarded for construction.

During this period, the section, led, (some would say driven), by Chuck Racine; it was a Non-appropriated fund construction benefits to an immediate need to repair or replace immediate requirement to immediate need to replace the hundreds of temporary facilities Korea-wide which had already served far beyond their original design life.

What is the NAF Construction Program? This is the construction program funded with "soldier's money"; revenues from Army and Air Force Exchange Service clubs, etc. Congress does not appropriate money out of the defense budget for these projects. Projects can be funded from either the Defense Appropriations Act or the Army-controlled surplus in Washington or locally-generated/controlled funds in Korea (Capital Purchase and Minor Construction). The actual cost of the construction is covered by the club (new or renovations), bowling centers, multipurpose fields and courts, sports complexes, racquetball courts, recreation complexes, youth activity centers, unit entertainment centers, and swimming pools.

Just how large is this program in Korea? The NAF Construction Program (excluding CPM/CPM projects) has been growing larger and larger each year.

By Craig Leiby

FESS

Facilities Engineer Support Section (FESS) does more than just Operations and Maintenance-Army work! Family Housing-Army and Operations and Maintenance-Navy projects as well as the Non-Appropriated Fund Construction Program (Army) are areas of FESS expertise. As a matter of fact, the NAFCP has been growing larger and larger each year. Let's take a closer look at what this program is all about.

What is the NAFCP Program? This is the construction program funded with "soldier's money"; revenues from Army and Air Force Exchange Service clubs, etc. Congress does not appropriate money out of the defense budget for these projects. Projects can be funded from either the Defense Appropriations Act or the Army-controlled surplus in Washington or locally-generated/controlled funds in Korea (Capital Purchase and Minor Construction). The actual cost of the construction is covered by the club (new or renovations), bowling centers, multipurpose fields and courts, sports complexes, racquetball courts, recreation complexes, youth activity centers, unit entertainment centers, and swimming pools.

Just how large is this program in Korea? The NAF Construction Program (excluding CPM projects) has been growing larger and larger each year.

At the same time, the Air Force programs previously managed in FESS were transferred to the Air Force Section to consolidate and streamline management. This also provides Air Force with a single point of contact for all projects and a ready facility for determining FESS's needs.

"As a consequence of the recent realignment, FESS has a narrower focus, primarily Army, and the very small Navy programs. This will allow us to get better at what we do. We'll never forget our past experience, and we'll still be the place to go when a quick response to unusual requirements is needed. But we're also working to develop a new image of FESS, one that is consistent with our changing role" — we demonstrate Leadership in Government; we exhibit the highest level of Customer Care while establishing the Standard of Excellence within Military Branch. I'm proud of the team I have here in the section. They do the tough jobs and they do them well," said Blood.

Non-appropriated fund construction benefits soldier
FED softball team starts season

FED has once again fielded a team of has beens, want nots and over-the-hillers who are teaching lessons to the younger generation. Every year getting back in shape takes longer but the enthusiasm is still in prime condition when FED takes the field.

Looking forward to another successful season are returning players Dave Roden, Dennis Fischer, Terry Woterspoon, Carrie Shores, Jesse Amador, Mike Connolly, Scott McCue and Mike Deno. Filling out the roster are this year’s crop of bright new stars Paul Barnes, Ricardo Cheng, Kelly Gray, Ken Sanders, Ken Copeland, Jeffrey Radford, Oliver Smith, Dave Wells and Bob Hercog.

There’s still time to call Dave Roden for information. Come out and support your team.

Warm weather brings fire hazards

Summertime, and the livin’ is easy. But don’t take it easy on fire safety, because warm weather brings special hazards. Here are a few safety tips:

Never fill the gas tank on a lawn mower while it’s running, hot or in a closed area such as a garage. Gas can explode without warning, causing severe burns.

Store only small quantities of flammable liquids to reduce chances of a severe fire.

Don’t leave barbecue fires unsupervised, and do your grilling at least 10 feet away from buildings. Grilling on apartment or dormitory balconies is dangerous — which is why it is not allowed in most places. Don’t douse charcoal with lighter fuel once the fire has started, and make sure the coals are smoldering embers.

If you have a carport or garage, keep it neat. Store flammables and other substances out of children’s reach. And don’t let young children use it as a play area.

Check with local fire officials before burning leaves or other dead plants. You may need a permit to burn leaves. Burning leaves could start a fire, especially if there has been a drought.

A year round tip: Don’t attempt to put out a grease fire with water. “Put a lid on it,” is the fire safety specialist’s slogan. It’s best to have a frying pan with a top — use the top to smother the fire (after you’ve turned off the burner.) If you don’t have a top for your frying pan, place another large, empty pot over the flames. And never pick up a burning pot — you could fan the flames or set yourself on fire.

Fire safety experts no longer recommend dousing grease fires with baking soda — they say by the time you get enough to do any good, the fire will have spread. Using flour to douse a grease fire can result in an explosion, said the Navy’s fire marshal program administrator, William D. Killen. If the fire seems to be getting out of hand, get yourself and everyone else out of the house and call the fire department from a neighbor’s phone.

If you do suffer a minor burn, safety experts say you should never put grease or a cream antispetic on it. Cool water is best. Of course, major burns, or minor burns affecting a large area, require emergency room treatment.

여름철 화재사고방지에 특별 유의토록

여름철 화재 사고를 방지하기 위해, 여러 조치가 취해지고 있습니다.

1. 기계가 작동 중인 데, 가열된 상태, 혹은 화재가 발생할 경우에 화재가 발생하지 않도록 합니다.
2. 바람을 이용할 때, 그 장소를 비우지 않도록 합니다.
3. 장소는 적절하게 3미터 이상 떨어져서 비어있어야 합니다.
4. 화재가 발생할 경우에, 해당 장소를 비우지 않고, 다른 장소로 이동해야 합니다.
5. 화재가 발생한 장소는, 즉시 진화구도로 연락하여 비상대피를 하도록 합니다.

공병단 소프트볼 팀 봉철리그전 시작

국동가구공병단 소프트볼팀은 올해에도 착수 경기에 참가하였습니다. 주전 후보로, 노점 선수들을 유학하고 있습니다. 매년 세금지 팀을 조리한 후에는 많은 시간이 지났지만 경기에 구분이 없어지는 그 위기의 현장에 위치하고 있습니다.

운동해도 차분하고 좋은 성격\( 올직으로 기대되는 선수들이 \)

Dane Roden, Dennis Fischer, Terry Wotersporns, Carrie Shires, Jesse Amador, Mike Connolly, Scott McCus, Mike Deno가 참가하고 있습니다. 세로 참가하는 선수들로는

Paul Barnes, Ricardo Cheng, Kelly Gray, Ken Sanders, Ken Capeland, Jeffrey Radford, Oliver Smith, Dave Wells, Rob Herceg가 참여하고 있습니다. 참가자 명단은 Dave Roden으로 변경되었습니다. 참가 명단을 동의하던 마트 Waterson군은 참가 명단을 바탕으로, 참가 명단이 변경되었습니다.

언론에 있는 기회임을 바탕으로, 이들의 참가를 기쁘게 생각합니다.

여름철 화재사고방지에 특히 유의토록

여름철 화재 사고를 방지하기 위한 여러 조치가 취해지고 있습니다.

1. 기계가 작동 중인 데, 가열된 상태, 혹은 화재가 발생할 경우에 화재가 발생하지 않도록 합니다.
2. 바람을 이용할 때, 그 장소를 비우지 않도록 합니다.
3. 장소는 적절하게 3미터 이상 떨어져서 비어있어야 합니다.
4. 화재가 발생한 장소는, 즉시 진화구도로 연락하여 비상대피를 하도록 합니다.
5. 화재가 발생한 장소는, 즉시 진화구도로 연락하여 비상대피를 하도록 합니다.
6. 화재가 발생한 장소는, 즉시 진화구도로 연락하여 비상대피를 하도록 합니다.
7. 화재가 발생한 장소는, 즉시 진화구도로 연락하여 비상대피를 하도록 합니다.
8. 화재가 발생한 장소는, 즉시 진화구도로 연락하여 비상대피를 하도록 합니다.
9. 화재가 발생한 장소는, 즉시 진화구도로 연락하여 비상대피를 하도록 합니다.
10. 화재가 발생한 장소는, 즉시 진화구도로 연락하여 비상대피를 하도록 합니다.
